The Following items contain Glycerin:***

- Gluten Free Bagel
- UBR Breakfast Round
 - Vegetable based from Manufacturer

*Enzymes are often found in cheese products and most likely come from beef or synthetic sources. However, manufacturers cannot confirm that these enzymes did not come from pork sources.

**Contains ham or sausage made from turkey, chicken, or beef.

***Glycerin is often found in condensed milk, dairy products, processed meats, and egg-based desserts or dried eggs. Most food grade glycerin is derived from plant oils, but can come from animal sources.
